THE CORPORATE GRIOT

In *The Corporate Griot: Conscious Leadership for Women of Color*, Elle Ramsey invites readers to rediscover leadership as a sacred act of remembrance, not performance. Blending ancestral wisdom, corporate strategy, and personal storytelling, she redefines what it means for women of color to lead in modern spaces.

This book is both a mirror and a map, reflecting the strength of those who came before us while guiding readers toward self-awareness, balance, and purpose. Through timeless principles and grounded reflection, Elle shows that conscious leadership is not about control or competition, but about presence, alignment, and legacy.

For every woman who has ever led from resilience but is ready to lead from wholeness, *The Corporate Griot* is your call to rise, reclaim your rhythm, and lead from within.

I partner with conscious women of color leaders, visionaries, and changemakers who are ready to lead from purpose, not pressure. Through group experiences, I create and support spaces where women can reconnect with their authentic leadership, embody their wisdom, and expand their impact together. Whether in the boardroom, retreat circle, or the fireside, my work centers on one truth, when women of color lead consciously, entire systems transform.
